About Me

Passionate Computer Engineering student skilled in full-stack web development using React, Django, and Node.js. Experienced in building scalable, user-focused applications through academic and freelance projects. Seeking opportunities as a Software Intern or Junior Developer to contribute to innovative solutions.

Skills

- Frontend: HTML, CSS, JavaScript, React,
- Backend: Node.js, Django
- Database: SQL
- Other: Networking, Git & GitHub

Education

- Bachelor of Science in Computer Engineering
University of Gondar, Ethiopia| Expected Graduation: 2026 2022- 2025

Relevant Coursework:

- Data Structures & Algorithms
- Database Systems (SQL, MySQL, PostgreSQL)
- Object-Oriented Programming (Java/C++) and python
- Web Development (HTML/CSS, JavaScript, React)
- Operating Systems & Computer Networks
- Distributed system & Embedded system
- AI

Experience

- Web Developer – Academic Projects
University of Gondar 2022 - 2024
 - Created multiple web-based applications as part of coursework and team projects.
 - Applied Object-Oriented Programming (Java & C++) principles to structure scalable and reusable code.
 - Developed projects such as e-commerce, management systems, and presentation apps using React, JavaScript, and PostgreSQL.
 - Assisted students in understanding C++/Java debugging, Data Structures, and Algorithmic problem-solving.
- Full-Stack Developer (Freelance)
Remote 2024- 2025
 - Designed and developed full-stack web applications for clients using React, Node.js, Django and PostgreSQL.
 - Built responsive, user-friendly UIs with Tailwind CSS and optimized performance for better user experience.
 - Integrated secure authentication and API systems to manage real-time data and transactions.
 - Collaborated with clients to gather requirements, deliver timely updates, and deploy projects successfully.
